Neil

STATINTL

Had  look through this last Friday. was able to satisfy him on his points but for one.

He thinks we might be mixing up form and format. I read this as we are including format by the word form. we are using the word form because it includes more than what format connotes.

He wanted me to mention his concern on the use of form/format

Ruby

my comments are keyed to yours on the attached.

Rudy:

- Are our Fast Friends willing to support para. 11? If so, let it stand - except that I question the use of the word model. It means many different things.
- ① to different people. In this context, it sounds like a "plan".

- ② Picky Point: Is it usual to leave the "I" out of para. 12

- I've made some changes - editorial I think you can spot them - I write softer!
- ③

- ① Right. Believe I fix it by taking out the words.

- ② Yes - usually in this way since your sign is below.

- ③ Good changes. Sorry about that how witty!
- Rudy

21 October 68

Neil,

attached is a draft version of the IGS paper we are supposed to have ready before the 6 Nov IHC meeting.

I have made some editorial changes and these are in pencil on the draft. The cover sheet with its changes have been retyped - I am giving you the old one so you can see the changes.

Since you last saw the paper I have added a new para. 11.

Believe me should strive to get this paper distributed soonest.

Rudy

MEMORANDUM FOR: Executive Secretary, Intelligence Information Handling Committee

SUBJECT: Liaison Between IHC and IGS

REFERENCE: IHC-MM-13 of 24 September 1968

1. This responds to your memorandum of 24 September 1968.

2. In accordance with past practice, I will take steps to insure that you receive copies of draft Group-B Intelligence Guidance for COMINT Programming at appropriate points in the formulation cycle, in order that you may be in an informed position.

3. Per our discussion on 4 October 1968, when you and Mr. [redacted] met with the Subcommittee, I will advise you in each instance when the IGS will be cleaning up Subcommittee drafts of Group-B intelligence guidance for each Subelement of the Consolidated Cryptologic Program. [redacted] or other members of the Support Staff, will be welcome to join with the Subcommittee in considering community information handling matters on these occasions.

IHC-MM-13  
24 September 1968

MEMORANDUM FOR: Chairman, IGS

SUBJECT: - Liaison Between IHC/SS and IGS

1. In view of the responsibilities of the Intelligence Information Handling Committee, I am requesting that the IHC Support Staff be placed on distribution for a copy of IGS guidance papers which deal with dissemination and delivery of signal intelligence as formatted data. As you know, the IHC is in the process of formulating a community information handling plan which bears on data exchange and related matters in the community. Thus, I am concerned that the Support Staff be knowledgeable regarding developments which would affect the plan.

2. The fulfillment of staff responsibilities would be aided by a closer liaison with your subcommittee. I therefore suggest that a member of the IHC Support Staff be included as an observer at IGS discussions of community information handling matters. If you concur, [redacted] of the Support Staff would be available to serve in this capacity. He can be reached on extension [redacted] in Room 2F42, Headquarters.
